

# Viktor Jovanović

## Full-Stack Developer & AI Automation Specialist

Belgrade, Serbia

### Work Experience

#### Varius Development

2021 - Present

#### ● Zlatiborac – Modernizing Logistics System (Android)

Flutter Developer (2026, in progress)

Migrating a legacy Java system to Flutter for Zlatiborac, Serbia's largest meat producer. Phased migration approach – replacing the system while it stays live in production, deployed to Samsung Tab A9 devices for logistic team.

#Flutter #Dart #REST API #Java (legacy)

#### ● S&I Cleaning – (Canada) – (Android/iOS)

Full-stack/Flutter Developer (2024)

Area Manager app for a Canadian cleaning company across Walmart locations. GPS-verified attendance, shift scheduling, full system ownership: mobile app, REST API, and admin panel.

#Flutter #Next.js #Laravel #AWS #MariaDB

#### ● Gentlemen Transport (Android/iOS)

Flutter Developer (2022-2023)

Driver + passenger apps and Next.js admin panel for a premium Serbian taxi service. Real-time tracking, WSPay payments, Google Maps navigation.

#Flutter #Firebase #Google Cloud #Google Maps API #WSPay #Next.js

#### ● Zlatiborac Magacioner (Android/iOS)

Flutter Developer (2023-2024)

Internal warehouse app for Zlatiborac, built on custom Samsung hardware. Established the company's mobile foundation – now expanded into the Metis fleet system.

#Flutter #REST API

#### ● Top D&D – (Austria) – Web + Mobile

Full-Stack Developer (2023-2025)

Two deliveries for Vienna. Web (2023): Google Maps route planning, printable PDF briefings. Mobile (2025): QR + GPS clock-in, task management, photo uploads, real-time admin chat.

#PHP #Laravel #Flutter #Firebase #REST API #Google Maps

#### ● QuatuorMD – (Canada)(Android/iOS & Web)

Flutter Developer (2023)

Flutter app for a Canadian medical clinic network. Patients monitor metabolic health and access clinic data. Custom AWS backend, MFA, and Firebase Phone validation – no third-party services for patient data.

#Flutter #AWS #MFA #Firebase Auth #Firestore

#### ● Uzmi Kredit (Android/iOS & Web & MacOS)

Full-stack/Flutter Developer (2021)

Credit comparison across Android, iOS, Web, and MacOS – single Flutter codebase. Users compare offers from multiple Serbian banks.

#Flutter #PostgreSQL #Google Cloud #Firebase Auth #MySQL

**5+ years. 10+ apps shipped to production. Clients in Serbia, Austria, Canada, and the US.**

*AI-assisted workflows let me deliver in days what teams take weeks to build – backed by 5+ years of deep technical knowledge before AI tools existed.*

**One-person operation delivering like a small team. Live work: [aiautomation.rs](https://aiautomation.rs)**

### 🧩 Key Skills

**Mobile Development:** Flutter, Dart (5+ years, 10+ apps shipped)

**Backend:** PHP, Laravel, Codelgniter, Node.js, REST API design

**Frontend:** React, Next.js, HTML/CSS, JavaScript

**Databases:** MySQL, PostgreSQL, MariaDB, MongoDB

**Cloud & Services:** AWS, Google Cloud, Firebase (Auth, Firestore, Dynamic Links)

**AI & Automation:** AI-assisted development workflows, prompt engineering, rapid prototyping – reduces delivery time by 40–60%

**Other:** Stripe, PayPal, WSPay, Xero, Tipalti, Google Maps API, GPS/QR, MFA, Git, CI/CD
